# Ryan Corner Wind Farm

## Project Update

### Planning Permit and Development Plans

- ✓ Planning permit 20060222-2 has been extended to a completion date of 30 August 2024.
- ✓ The development plans have been updated and endorsed.

### Wind Farm

- ✓ The components (blades, nacelles, tower sections, hubs and rotors) continue to be delivered to site. 87% have been delivered.
- ✓ All turbine foundations have been poured and the batch plant site has been restored.
- ✓ Civil works are completed and a team remains on site to maintain the access tracks and hard stands.
- ✓ The civil contractors are demobilising from site and buildings some have been removed.
- ✓ Trenching for the underground cabling is making good progress. Approximately 81% completed.
- ✓ Permanent gates and fencing are agreed with landowners and is progressing.

### Transmission Line, Collector Substation and Tarrone Terminal Station

- ✓ Civil contractors have demobilised and removed their site compound at Tarrone terminal station.
- ✓ Energisation of the transmission line successfully occurred in December '23.
- ✓ Weed spraying along the access tracks has commenced.
- ✓ Ryan Corner collector sub-station:
  - 132kV yard is completed.
- ✓ STATCOM installation in progress:
  - 33kV yard.
  - Operations and Maintenance building being fitted out.
  - Warehouse under construction, cladding and slab completed.
  - Switch room being fitted out and cabled.

## Weekly Construction Updates

**Weekly construction updates** available on the Ryan Corner web site, follow the link: [Ryan Corner Wind Farm Progress - Global Power Generation \(globalpower-generation.com.au\)](https://ryancornerwindfarm.globalpower-generation.com.au)

## Construction Work Hours

- ✓ Monday to Friday: ..... 7am to 6pm
- ✓ Saturday: ..... 7am to 4pm (regular)
- ✓ Sunday/Public Holiday: ..... 7am to 1pm (occasional as required)

**Saturday afternoon** (1pm to 4pm) and **Sunday/Public Holiday**, works will be restricted to “managed impact” and “low impact” works as defined by the **EPA guidelines**.

**Sunday works commenced each week from November 6 2022.**

The purpose of weekend work is to reduce the overall construction duration, and subsequently the duration of impact on the local community. If you have any concerns or queries, please contact Debra Dumesny 0428 867 646 or [debra.dumesny@globalpower-generation.com.au](mailto:debra.dumesny@globalpower-generation.com.au)

# Community Engagement and Benefit Sharing

## Community Engagement Committee

There are currently **3 community representative vacancies** on the **Community Engagement Committee (CEC)**. This committee plays an important role in ensuring information is shared between the community, the Moyne Shire Council and Ryan Corner Wind Farm. **Information on how to apply for a position on the committee is available at Ryan Corner Wind Farm (moyne.vic.gov.au) or by contacting Council on 1300 656 564.**

The Ryan Corner Wind Farm CEC December meeting was held. The next meeting is scheduled for February 2024. Minutes from all **CEC meetings** are available on the Moyne Shire web site, from **CEC members** or please contact Debra Dumesny on **0428 867 646** or by email [debra.dumesny@globalpower-generation.com.au](mailto:debra.dumesny@globalpower-generation.com.au) to request a copy of the minutes.

We encourage you to contact a **CEC representative** if you wish to bring concerns to the CEC for discussion, or if you would like to be included on the **distribution list** for the confirmed minutes and updates.

**Contact details** for your local community members can be found by contacting the **Moyne Shire Council**.

## Complaints Investigation and Response Plan (CIRP)

The **CIRP** has been endorsed and can be found on our [https://ryancornerwindfarm.globalpower-generation.com.au/](https://ryancornerwindfarm.globalpower-generation.com.au) following the link **The Project>Relevant documentation**.

Canberra ACT 2601

## Do you know about?

### From the tower to you

**How does the power get to the terminal station to begin distribution to our homes and workplaces?**

The Wind Turbine Generator (WTG) produces power that is then sent through a network of underground cables to the on-site collector substation. Power is generated by the WTG at 660 volts and increased to 33,000 volts (33kV) through the transformer in the nacelle of the WTG.

Underground cabling links the 52 WTGs on the Ryan Corner wind farm into 8 collector groups and in turn connects these groups to the on-site collector substation. The power enters the substation through the individual collector group circuit breakers in the switch room.

Next step is to go through a main circuit breaker to the station transformers. At this point the power is increased to 132kV. Due to the number of WTGs Ryan Corner wind farm has installed a Stat Com (STATic synchronous COMPensator). The purpose of the Stat Com is to clean and stabilise the voltage before it exits the wind farm. The power then moves from the wind farm through the new transmission line to the Tarrone terminal station.

The transmission line is 18km long and has 76 poles. At the terminal station the power moves through transformers and is connected to a 500kV transmission line. Once the power is fed into the 500kV line it is moved through several sub stations until it moves into the distribution network and to your home or workplace.

## Further Information

Do you want to know more?

If you would like to know more about the **progress at the wind farm**, check the latest updates on the web page or maybe you are a **member of a club or group** that would like us to **visit and explain** further about the construction and operation of the wind farm, please contact Debra on 0428 867 646

## Contact Us

### Ryan Corner wind farm site office

Please **phone, email, or visit** us if you have any enquiries. **Debra** will be at the site office on **Monday, Tuesday and Wednesday**. The site office generally has someone present on all days. The **Hawkesdale** office has now closed.

Contact Debra on **0428 867 646** or by email [debra.dumesny@globalpower-generation.com.au](mailto:debra.dumesny@globalpower-generation.com.au)

### How to be included on the Email List

To be included on the **distribution list for our newsletter and updates via email**, please contact our Community and Stakeholder Engagement Officer Debra on **0428 867 646** or by email [debra.dumesny@globalpower-generation.com.au](mailto:debra.dumesny@globalpower-generation.com.au) or [ryancornerwindfarm@globalpower-generation.com.au](mailto:ryancornerwindfarm@globalpower-generation.com.au)
